

Chirodentic® Syntax of Care

	Chiropractic	Cranial	Dental	Nutritional
<u>Phase I</u>	Establish Smooth Spinal Coupling		Stabilize the TMJ	Support Basic Cell Needs
	Stabilize the Pelvis and SI Joints	Mild Sutural Release and ROM	Establish Proper Posterior Vertical	Pain Pathways/Connective Tissues
	Support the Rearfoot in Neutral		Establish Mandibular Position	Support ATP / Digestion
	Level the Shoulders / Viscera	Sutural Preparation for Appliances	Level the Maxilla - Temporarily	Detoxification of Major Systems
<u>Phase II</u>	Balance the Pelvic Torsion	Specific Roll Corrections	Balance the Eyes - Cranial Roll	Adrenal Balance
	Balance Upper Cervicals	Specific Yaw Corrections	Balance the Eyes - Cranial Yaw	ANS Balance / pH & SG
	Clear Dural Restrictions	Continued Sutural Releases	Develop Cranial Arch Positions	Mineral Balance / Bone Matrix
	Flow Chart for Challenges	Respiratory Specifics to Neutral	Develop Cranial Arch Forms	Balance ANS Body Types
<u>Phase III</u>	Address Electromagnetics	Cranial Ranges of Motion	Develop Dental Tooth Position	Electromagnetic Support
	Core Facilitation Exercises	Balance the Membrane System	Develop Tooth Form	Dental / Parasite Detoxification
	Strength and Aerobic training	Balance the C R I	Establish Final Occlusion	Flow Chart For Specific Needs
